

PROFILE

AI and automation consultant with a BSc in Computer Science. I build and run AI content pipelines, websites and platforms in production, and bring programme delivery experience from Scrum, digital transformation and learning programmes. I bridge technical and non-technical teams: I can build the system and run the project around it.

EXPERIENCE

2026 - present

AI & Automation Consultant Independent

- Designed and run eight AI content pipelines (research, drafting, quality gate, WordPress publishing, social scheduling, alerting) on a shared codebase in Docker.
- Built FindMySafari, a multi-language safari marketplace on Next.js and Postgres with enquiry matching and traveller, operator and admin portals.
- Designed and built the She Writes poetry journal, including a custom writing desk plugin for WordPress.

2026

Lead, 6xD Academy Nairobi DigitalQatalyst

- Led planning and execution across training delivery, curriculum, bundles, marketing, sales and partnerships, support, billing and the learning platform.
- Tracked the programme funnel from leads to attendance and coordinated stakeholders, institutions and partners.

Oct 2025 - Sep 2026

Project and Programme Operations, Scrum Master, Technical Writer DigitalQatalyst

- Coordinated concurrent digital transformation, communications, content and learning workstreams; facilitated Scrum and tracked delivery against targets.
- Stories Factory Lead and Co-Lead, GHC Communications Tower Lead; coordinated DBP Reports, DCO Editorial and GHC Communications contributors.

Feb 2024 - Mar 2025

Operations and Mentorship Programme Manager Teach2Give

- Ran a mentorship programme for 150 mentees and built Power BI dashboards for progress and job placement.
- Wrote SOPs for procurement, mentor pairing, newsletters and IT support; hosted the Teach2Give Podcast.

Oct 2023 - Jan 2024

Full-Stack Engineer and QA Engineer, internships Teach2Give

- React interfaces, MSSQL structures and APIs on AWS and Azure; test plans, test scripts and regression testing.

Jan 2022 - Aug 2023	Customer Service Representative ONQ Kenya Handled enquiries and complaints, analysed customer feedback and reported to management in Power BI.
Sep - Dec 2021	Software Developer, internship The Jitu Web applications and REST APIs with Angular, React, Node.js and Django, with unit tests and Git.
Jan 2018 - Aug 2021	Hardware Technician Hillmar Computer Services Diagnosed and repaired systems, maintained networks and wrote user documentation.
Apr - Aug 2019	IT Support Intern Kisii Teaching and Referral Hospital Hardware, software and network troubleshooting, user access and remote support.
